

TEFIK ALIU

JUNIOR SOFTWARE DEVELOPER | QA AUTOMATION | PYTHON

Sweden | Remote from Sweden | Tefik.aliu@gmail.com | github.com/tefik-aliu | [Live Demo](#)

PROFESSIONAL PROFILE

Junior software developer and QA automation practitioner with a portfolio of tested, documented projects in Python, FastAPI, Playwright and CI/CD. Brings more than 20 years of industrial glass production experience at Saint-Gobain, combining software skills with proven quality control, systematic troubleshooting, process discipline and reliability under real operational pressure.

TECHNICAL SKILLS

Languages & Data	Python, TypeScript, JavaScript, SQL, Pandas, OpenPyXL
Backend & APIs	FastAPI, REST APIs, PostgreSQL, SQLite, OpenAPI documentation
QA & Delivery	Pytest, Playwright, API/E2E testing, Ruff, Git, GitHub Actions, Docker, Render
Platform & Observability	Kubernetes, Prometheus, Grafana, OpenTelemetry, health/readiness probes

SELECTED PROJECTS

Service Observability Lab | 2026

- Built a production-style FastAPI service with PostgreSQL, Docker Compose, Kubernetes manifests, Prometheus, Grafana and OpenTelemetry.
- CI runs Ruff, Pytest, TypeScript validation and Playwright end-to-end tests against an automatically started service.

GitHub: [tefik-aliu/service-observability-lab](https://github.com/tefik-aliu/service-observability-lab)

IssuePilot - Full-Stack Issue Tracking Application | 2026

- Built and deployed a FastAPI/SQLite application with a responsive JavaScript frontend, REST API, search, filters and live statistics.
- Added Pytest, Playwright, Docker and GitHub Actions; deployed the working public demo on Render.

GitHub: [tefik-aliu/issuepilot](https://github.com/tefik-aliu/issuepilot) | Live: issuepilot-tefik.onrender.com

Ops Report Automator | 2026

- Built a Python tool that validates CSV/Excel operations data and produces KPI dashboards, Excel workbooks and HTML reports.
- Uses Pandas, OpenPyXL, Pytest, Ruff, Docker and GitHub Actions with downloadable report artifacts.

GitHub: [tefik-aliu/ops-report-automator](https://github.com/tefik-aliu/ops-report-automator)

IssuePilot QA Automation | 2026

- Developed API and Playwright end-to-end coverage for creation, search, update and deletion workflows using the Page Object Model.
- GitHub Actions starts a fresh IssuePilot instance, runs the automated suite in Chromium and uploads debugging artifacts.

PROFESSIONAL EXPERIENCE

Industrial Glass Production & Quality Operations - Saint-Gobain, Sweden | 20+ years

- Operated and troubleshooted complex glass-production machinery in a safety-critical, quality-driven environment.
- Diagnosed faults under time pressure, coordinated practical fixes and supported reliable production across teams.
- Applied quality control, process discipline, workplace safety and continuous improvement in daily operations.

EDUCATION, LANGUAGES & TECHNICAL EXPLORATION

Certified Personnel Specialist (Personalvetare), Sweden

Additional studies: Administration 1-2; Information & Communication

IBM Quantum: executed CHSH/Bell-test circuits and reviewed real-hardware noise.

Swedish - Fluent

Albanian - Fluent

English - Professional working proficiency
